KARE@HOME
lets you choose

what works best for you and your little one! Bring our expert teachers and caregivers home and let us take care of your child's learning and childcare needs.

Teacher@Home

Delivery of KLAY's Early Years Matter Preschool Curriculum by a certified teacher at your home.

Caregiver@Home

Caregiving service by our trained caretakers at your home.

KLAY's *Early Years Matter* PRESCHOOL CURRICULUM

Did you know?

In the first 2000 days of a child's life,

the neurons in the brain develop at a rate of 700-1000 per second and 85% of the brain develops during this time.

Aptly known as the 'Window of Opportunity', the experiences in these 2000 days is a strong predictor of an individual's health, learning and behaviour throughout life.

Children during these crucial early years ask questions, experience their immediate environment, learn to share, and thrive in a happy environment.

@KLAY, we make your child future ready,

by setting the foundation for key life skills that make them 'BIG SCHOOL' READY as well as ready for their life ahead.

We nurture them to be:

Curious
Collaborative
Confident
Empathetic
Independent

Basis the required outcomes,

KLAY's Early Years Matter PRESCHOOL CURRICULUM

has been divided into the these areas of development for the child:

5 Skills

The driving principle of KLAY 's Early Years Matter Preschool pedagogy is Howard Gardner's Theory of Multiple Intelligences, which clearly identifies several intelligences and preferences that human beings depend upon, to take in information and solve problems.

Depending on one's intelligence, a child's learning modalities and preferences may differ. The Early Years Matter Preschool Curriculum therefore, recognizes and appreciates these preferences in the learning process.

@ KLAY, We Teach the Way the Child Wants to Learn

Basis this theory, at KLAY, we define the different intelligences through which a child learns as stated here:

7 Multiple Intelligences

The theory forms the foundation for

the KLAY way of learning

and for our Early Years Matter Preschool Program, supported by the 3 key pillars of learning methodologies:

- We inquire & learn
- We explore, experience & learn
- We do & learn

The KLAY way of learning helps us break down the KLAY Early Years Matter Preschool Program into daily lesson plans to create learning centres and learning outcomes which can be achieved through all our mediums of learning – online, physical – at centre or physical – at home.

Some of the key learning aids that we use for this purpose are:

Discovery Based Activities

Library or Reading Nooks

Math and Manipulatives

Dramatic, Pretend Play

Art & Craft

Outdoor Play

The KARE@HOME Programs

Teacher@home/Community

Teacher will deliver curriculum on alternate days between Monday to Friday, excluding national holidays

Toddlers (2-3 years)

Infants & Junior Toddlers (6 months - 2 years	3.5 hour or 7 hours	Care model • Daily routine
Senior Toddlers up to K 2 (2-6 years)	3.5 hour or 7 hours	Care model • Daily routine

Social Bubbles
- The Need of the Hour

At KLAY, we believe, children learn and grow best while in the company of other children. The KARE@Home program has been built to accommodate the concept of 'social bubbles' where you can enroll your little one along with his/her friends and watch them learn and be happy together.

Here's what some of our Happy parents have to say!

Just wanted to say a massive thank you to KLAY, their teachers and the school staff who all are working hard for the organization on all the weekly programs and more. Those 5 weeks of home schooling have been very successful and my child has shown lots of interrest, concentration and dedication. I am very pleased. Sage lovers her teacher so dearly, I am grateful to her teacher, Mrs. Rohini, for being so good and so patient with sage and creating such a fun and educational environment for her.

Sage Singh's Partents

I am a mother of 4 year old boy who is active, happy go lucky and naughty. He is our heart and soul and our reason to smile. Being a shy, soft spoken and introvert keid, we were worried about him. We got him enrolled for KARE @home. I feel blessed that I did something right. Within 1 and hlalf months, he has become very vocal and extrovert. He enjoys his classes. The teacher allotted to us is very nice, friendly, clam and patient. My son is very fond of her and has settled well. Thank you KLAY, for transforming and molding my child. I can vouch for the teachers and the teaching.

Shreya Thakur
