# In-Person Teaching & Childcare Services

Delivered to Your Doorstep

Your one-stop in-person and at-home learning and childcare solution built for your children during these unprecedented times & available within **the comfort of your home.**

# Why **KARE@HOME?**

Establish a daily, constructive and stimulating routine that supports your child's learning at home

Our teachers and caregivers go through stringent safety protocols and processes

Proven pedagogy and care established and improved over 10+ long years for 50,000+ children

An opportunity for little ones to socialize with their teachers, caregivers and friends while at home

One-on-one personalized attention + age-appropriate activities

Term assessments + parent-teacher feedback sessions

Expert teachers delivering India's most loved and trusted curriculum based on the theory of Multiple Intelligence and Experiential Learning

Support from our expert teachers with school online classes and assignments

# We Leave No stone Unturned *When It Comes To Your Child's Safety*

Safety is always first at KLAY and our KARE@Home program is delivered keeping in mind the highest safety standards.

Multiple levels of health screening, immunity checks and temperature testing

Vaccinations for all teachers and staff pan India through special tie-ups with hospitals

Temperature check of the child, parents, teacher/caregiver and other family members of the teacher, 7 days prior to starting the program

Multi-stage background checks and comprehensive psychometric analysis

All teachers and caregivers equipped with a comprehensive COVID-19 safety kit

Immunity tests for teachers and caregivers every 45 days

KNOW App for all teachers/caregivers for parents to approve login/logout times

SOS and Women's safety app installed on all caregivers and teacher's mobile phones

Mandatory POCSO, POSH, First Aid and Fire Safety training for all teachers and caregivers

# KARE@HOME

# KLAY's *Early Years Matter* PRESCHOOL CURRICULUM

## Did you know?

***In the first 2000 days of a child's life,***

the neurons in the brain develop at a rate of 700-1000 per second and 85% of the brain develops during this time.

Aptly known as the 'Window of Opportunity', the experiences in these 2000 days is a strong predictor of an individual's health, learning and behaviour throughout life.

Children during these crucial early years ask questions, experience their immediate environment, learn to share, and thrive in a happy environment.

***@KLAY, we make your child future ready,***

by setting the foundation for key life skills that make them 'BIG SCHOOL' READY as well as ready for their life ahead.

***We nurture them to be:***

**Curious**  
**Collaborative**  
**Confident**  
**Empathetic**  
**Independent**

Basis the required outcomes,

# KLAY's Early Years Matter PRESCHOOL CURRICULUM

has been divided into the  
these areas of development  
for the child:

## 5 Learning Dimensions

The driving principle of KLAY 's Early Years Matter Preschool pedagogy is Howard Gardner's Theory of Multiple Intelligences, which clearly identifies several intelligences and preferences that human beings depend upon, to take in information and solve problems.

Depending on one's intelligence, a child's learning modalities and preferences may differ. The Early Years Matter Preschool Curriculum therefore, recognizes and appreciates these preferences in the learning process.

*@ KLAY, We Teach the Way  
the Child Wants to Learn*

Basis this theory, at KLAY,  
we define the different  
intelligences through which  
a child learns as stated here:

## 7 Intelligences

The theory forms the foundation for

## *the KLAY way of learning*

and for our Early Years Matter Preschool Program, supported by the 3 key pillars of learning methodologies:

We inquire & learn

We explore, experience & learn

We do & learn

The KLAY way of learning helps us break down the KLAY Early Years Matter Preschool Program into daily lesson plans to create learning centres and learning outcomes which can be achieved through all our mediums of learning – online, physical – at centre or physical – at home.

*Some of the key learning aids that we use for this purpose are:*

**Discovery Based  
Activities**

**Library or  
Reading Nooks**

**Math and  
Manipulatives**

**Dramatic,  
Pretend Play**

**Art & Craft**

**Outdoor Play**

# The **KARE@HOME** Programs

## Teacher@Home/Community

### Toddlers (2-3 years)

Duration	Pedagogy
1 hour/3 days a week	One to one + activities as home learning
1.5 hour/3 days a week	Social bubble + activities as home learning

#### April & May

**Summer Learn:** A revision of all concepts taught through the year

**Summer Engagement:** Exciting activities and sessions to expand your child's social, cognitive and physical development skills in a fun way

# Social Bubbles

## - *The Need of the Hour*

At KLAY, we believe, children learn and grow best while in the company of other children. The KARE@Home program has been built to accommodate the concept of 'social bubbles' where you can enroll your little one along with his/her friends and watch them learn and be happy together.

# Here's what some of our Happy parents have to say!

Just wanted to say a massive thank you to KLAY, their teachers and the school staff who all are working hard for the organization on all the weekly programs and more. Those 5 weeks of home schooling have been very successful and my child has shown lots of interest, concentration and dedication. I am very pleased. Sage loves her teacher so dearly, I am grateful to her teacher, Mrs. Rohini, for being so good and so patient with sage and creating such a fun and educational environment for her.

Sage  
Singh's  
Partents

Shreya  
Thakur

I am a mother of 4 year old boy who is active, happy go lucky and naughty. He is our heart and soul and our reason to smile. Being a shy, soft spoken and introvert keid, we were worried about him. We got him enrolled for KARE @home. I feel blessed that I did something right. Within 1 and hlalf months, he has become very vocal and extrovert. He enjoys his classes. The teacher allotted to us is very nice, friendly, clam and patient. My son is very fond of her and has settled well. Thank you KLAY, for transforming and molding my child. I can vouch for the teachers and the teaching.
