- **Early Math and Logic skills:** understanding concepts like numbers, shapes, spatial awareness, problem solving and how objects are related to each other.

Who Is This Program Ideal For?

- Children who will be going to school for the very first time (Mainstream or Preschool).
- Children who are looking to transition into a physical classroom from an online/at-home program.
- Children who have had a break in their learning or haven't been a part of a structured learning program in the last 1-1.5 years.

Program Formats

The program is available in two formats – online and at-home

Learn from the comfort of your home at the single click of a button

Online

Learn in the company of other children and trained teachers in the comfort of your home

At-Home

Learn, Grow and Play with KLAY is a 2+2 month (Level 1 and Level 2) school readiness program, specially designed for 2.5 to 6 year-olds to help them to seamlessly transition from their comfortable living room classrooms to formal classrooms.

The program through its age appropriate modules will address the Physical, Personal, Social and Emotional needs of the child through various interesting activities, stories, games, and interactive sessions.

Here are details of the levels of the program. Each level will be completed in 2 months.

Level 1

- Introduction of 8 sounds
- Introduction of numbers 1-5 and pre-math concepts
- Learning to follow instructions and routines
- Opportunities for meaningful play, experimentation and discovery.
- Sensorial activities, colouring and doodling

Level 2

- Introduction of 10 sounds
- Introduction of numbers 6-9 and 0
- Activity-based focus will be on self-regulation, sensory processing, receptive language, understanding, expressive language (using language) articulation, and executive functions (high order reasoning)
- Scissor skills, sensorial activities and the holding of writing tools

Building attention span with a focus on the completion of simple tasks with open-ended art, storytelling, rhymes, dramatic play, music and experiential learning

Toddler (2.5-3.2 years)	1 Hour
Pre-K (3.2-4 years)	2 Hours
K1 & K2 (4-6 years)	2 Hours

A child's early years are the foundation for the child's future development. A strong foundation provides a strong base for lifelong learning, facilitating learning abilities and cognitive, emotional and social development. Well-established research emphasizes the importance of early childhood education as an essential building block of a child's future success.

School readiness is the ability to expand beyond this foundation, building knowledge, skills and behaviour that enables children to participate and succeed in school.
